Date of document: 11.16.17

Study title:

NCT number: NCT02988622
100 patients recruited from UIHC Dermatology Department

Split scar randomization

N=100
10,600-nm carbon dioxide (CO2) fractional laser

N=100
1550-nm non ablative laser (Fraxel)

Week 0
Photography, POSAS, blinded observer assessment
Treatment #1

Week 4
Photography, POSAS, blinded observer assessment
Treatment #2

Week 8
Photography, POSAS, blinded observer assessment
Treatment #3

Week 20
Photography, POSAS, blinded observer assessment

Week 32
Photography, POSAS, blinded observer assessment
